***Election/Restrictions***

1. Applicant's election without traverse of Group III, claims 13-16, in Paper No. 6 is acknowledged.
2. Claims 1-12 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 6.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 13-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 13 recites the limitation "where the geometrical isomer with respect to the methine chain is excited" in lines 7-8. There is insufficient antecedent basis for this limitation in the claim; more specifically, there is insufficient antecedent basis for the "geometric isomer" and the "methine chain".

Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are the structural formula providing antecedent basis for the claim limitations.

Art Unit: 1752

5. Claim 16 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 16 recites the limitation "from 1 to 10 dissociate groups are directly substituted to the chromophore" in lines 7-8. The scope of the protection sought by the limitation of being "directly substituted" is not clear.

Claim 16 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are the structural formula providing antecedent basis for the claim limitations.
